Hi Pranav,**This is Team No. 4**

This week we have successfully completed the Algorithms Study and reviewed each of them and also attached the pdf file of the algorithms. We plan to move on to implementation of specific algorithm which are essential for our project.

Please let us know if you need any clarification or have feedback on our progress.

Best regards,
Team No. 4

Hello srujan,

Seems good. I hope you learn these algorithms well before implementation as they are complex and might be confusing

You can refer Microsoft open source and you tube for free resources

BR
Pranav
